## 2013-14 Work Plan

### **ABC State University**

*Work Plan Presentation for 2013-14 Board of Governors Review*

STATE UNIVERSITY SYSTEM *of* FLORIDA | **Board of Governors**

### **INTRODUCTION**

*The State University System of Florida has developed three tools that aid in guiding the System's future.*

- 1) The Board of Governors' new Strategic Plan 2012-2025 is driven by goals and associated metrics that stake out where the System is headed;*
- 2) The Board's Annual Accountability Report provides yearly tracking for how the System is progressing toward its goals;*
- 3) Institutional Work Plans connect the two and create an opportunity for greater dialogue relative to how each institution contributes to the System's overall vision.*

*These three documents assist the Board with strategic planning and with setting short-, mid- and long-term goals. They also enhance the System's commitment to accountability and driving improvements in three primary areas of focus: 1) academic quality, 2) operational efficiency, and 3) return on investment.*

*The Board will use these documents to help advocate for all System institutions and foster even greater coordination with the institutions and their Boards of Trustees.*

*Once a Work Plan is approved by each institution's respective Boards of Trustees, the Board of Governors will review and consider the plan for potential acceptance of 2013-14 components. Longer-term components will inform future agendas of the Board's Strategic Planning Committee. The Board's acceptance of a work plan does not constitute approval of any particular component, nor does it supersede any necessary approval processes that may be required for each component.*

## MISSION STATEMENT (What is your purpose?)

Florida Agricultural and Mechanical University (FAMU) is an 1890 land-grant institution dedicated to the advancement of knowledge, resolution of complex issues and the empowerment of citizens and communities. The University provides a student-centered environment consistent with its core values. The faculty is committed to educating students at the undergraduate, graduate, doctoral and professional levels, preparing graduates to apply their knowledge, critical thinking skills and creativity in their service to society. FAMU's distinction as a doctoral/research institution will continue to provide mechanisms to address emerging issues through local and global partnerships. Expanding upon the University's land-grant status, it will enhance the lives of constituents through innovative research, engaging cooperative extension, and public service. While the University continues its historic mission of educating African Americans, FAMU embraces persons of all races, ethnic origins and nationalities as life-long members of the university community.

## VISION STATEMENT (What do you aspire to?)

Florida A&M University (FAMU) will be internationally recognized as a premier land grant and research institution committed to exemplary teaching, research, and service preparing transformational graduates with high ethical values dedicated to solving complex issues impacting our global society.

## STATEMENT OF STRATEGY (How will you get there?)

*Given your mission, vision, strengths and available resources, provide a brief description of your market and your strategy for addressing and leading it.*

The University's primary market continues to be African Americans and other underrepresented minorities. The University will continue to increase its efforts to attract students of all races, while enhancing its position as a leading producer of African American graduates, through innovative recruitment strategies, strategies to attract well-qualified students, as well as enhanced processes to increase yield rates, graduation rates and employment outcomes. This will necessitate a focus retention, student progression and graduation and on quality of instruction in particular strategic areas. The University also seeks to enhance its business operations to promote efficiency and compliance with external requirements. Furthermore, the University seeks to enhance its standing as a doctoral research university through increased research activity by incentivizing faculty, particularly in STEM and health disciplines, with an expectation of increased external funding.

## STRENGTHS AND OPPORTUNITIES *(within 3 years)*

### *What are your core capabilities, opportunities and challenges for improvement?*

Florida A&M University is a doctoral research institution and is one of the premier Historically Black Colleges and Universities (HBCUs) in the nation. Its strengths include over \$50 million in research expenditures annually, as well as offering an array of accredited professional programs and a focus on STEM and health disciplines, thereby producing minority graduates in these areas in which they are particularly underrepresented. In order to further enhance meeting its mission, the University intends to focus on ensuring compliance with SACSCOC accreditation standards; increasing retention and graduation rates at all degree levels; meeting the expectations of employers and the professions and increasing productivity in research. Opportunities include; the increased use of technology for effective recruitment and progression of students, including online courses and degree programs, and capitalizing on the restructured organization of the academic units to increase productivity in research as well as graduation rates of students.

## KEY INITIATIVES & INVESTMENTS *(within 3 years)*

### *Describe your top three key initiatives for the next three years that will drive improvement in Academic Quality, Operational Efficiency, and Return on Investment.*

#### **1. Remove Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) probation sanction**

The University has undertaken an aggressive and detailed corrective action plan and is working diligently to address the SACSCOC concerns that resulted in the probation sanction. The actions include strategies to enhance a culture of continuous improvement designed to sustain compliance with SACS and audit requirements into the future. A team of experienced administrators and faculty is working closely with the affected areas to implement corrective actions, demonstrate that the actions are having the intended results, and that the University is in compliance with all standards cited. A report will be submitted to SACSCOC by August 26 2013, with an expected site visit September 24-26, 2013. The Commission will consider the results at its December 2013 meeting.

#### **2. Increase the persistence/retention rate of undergraduate students, leading to increased graduation rates**

Strategies include: developing and implementing a comprehensive retention and debt reduction plan; increasing student participation in First Year Experience activities; increasing student engagement in curricular and co-curricular initiatives; offering professional development opportunities for students and faculty/advisors; and enhancing the electronic monitoring of student progression. The University has invested significantly in some of these activities designed to increase student retention and progression in the past two years, partly from tuition differential funds. More detailed information is provided in the update to the Retention and Debt Reduction Plan, which accompanies the Work Plan.

### **3. Increase pass rates on licensure examinations**

The FAMU Board of Trustees has established increasing pass rates on licensure examinations as a goal and set target pass rates for the programs in which passing licensure or certification is a condition of employment in the field. Each of these programs has developed detailed action plans which they are pursuing. The plans include a variety of strategies throughout the matriculation through the program, beginning with the first year and continuing through graduation. The strategies are beginning to yield results. Almost all the programs have seen increases in pass rates. It is expected that all pass rates will continue to increase until they meet or exceed the targets.

## KEY PERFORMANCE INDICATORS

The Board of Governors has selected the following Key Performance Indicators from its 2012-2025 System Strategic Plan and from accountability metrics identified by the Florida Legislature. The Key Performance Indicators emphasize three primary areas of focus: **Academic Quality, Operational Efficiency, and Return on Investment**. The indicators address common goals across all universities while also providing flexibility to address institution-specific goals from a list of metrics in the 2012-2025 System Strategic Plan.

The Goals Specific to Research Universities apply only to those universities classified by the Carnegie Foundation for the Advancement of Teaching as being a 'Research University'<sup>1</sup>, which includes Florida A&M University, Florida Atlantic University, Florida International University, Florida State University, University of Central Florida, University of Florida, and the University of South Florida.

---

<sup>1</sup> The Carnegie Foundation for the Advancement of Teaching has developed a well-respected system of categorizing postsecondary institutions that includes consideration of each doctorate-granting university's research activities – for more information see [link](#).

### Institution Specific Goals

Each university will select three metric goals from the following list of metrics included in the 2012-2025 System Strategic Plan:

Freshman in Top 10% of Graduating High School Class	Bachelor's Degrees in Areas of Strategic Emphasis
Percentage of Eligible Programs with Specialized Accreditation	Graduate Degrees in Areas of Strategic Emphasis
Bachelor's Degrees Awarded to Minorities	Number of Faculty Designated a Highly Cited Scholar
Number of Adult (age 25+) Undergraduates Enrolled	Seek and/or Maintain Carnegie's Community Engagement Classification (narrative goal)
Percent of Course Sections Offered via Distance and Blended Learning	Percentage of Students Participating in Identified Community and Business Engagement Activities
	Enrollment in Professional Training and Continuing Education Courses
