

# 3 Ways to Have a Successful Audit Engagement

## Up to Date Policies & Procedures

Having easy access to current policies and procedures helps us understand your department's activities and reduces the risk of errors or omissions during the audit. This saves time for everyone involved!

## Be Responsive

Prompt responses to our questions and requests for information keeps the audit moving smoothly and efficiently. Delays can throw off our entire timeline.

## Implement Corrective Action Items

Addressing audit findings promptly demonstrates your department's commitment to continuous improvement and a strong internal control environment.
