

FLORIDA AGRICULTURAL AND MECHANICAL UNIVERSITY

SOLE SOURCE CERTIFICATION

0000260701 and
Requisition Number: 0000260707 Bid #

In accordance with authority granted under Florida A & M University Regulation 6.005(10) (b), the following documentation is submitted in support of a request to purchase the items(s) listed below that are only available from one vendor.

Vendor: Unbound Medicine \$19,940.34 - Graduate Level Students
Account Number: 541964312 Cost \$15,362.20 - Undergraduate Level Students

Item(s): uCentral for Mobile + Web (Graduate Students)
Nursing Central (Undergraduate Students)

Justification: (Describe efforts made, vendors contacted, prices quoted, specifications required, availability, compatibility, decision/reason for selection). See attached for justification. Unbound Medicine provides nursing students with nursing resources they can access from their cell phone or other mobile devices while they are away from the computer via uCentral for graduate level students and Nursing Central for undergraduate level students. When students are in the simulation lab, skills lab, or clinical, they most times do not have access to a computer to lookup drugs, guided instructions for patient care, or drug interactions. These platforms gives students access to multiple resources in one location.

I, the undersigned, certify the above to be true and correct to the best of my knowledge and belief.

Wonda Martin Director of Academic Operations 11/5/2024
Signature Title Date

I, the undersigned designee of the Florida A & M University Purchasing Office, as delegated in Regulation 6.005(10) (b), (or a designee delegated the authority as described in, hereby concur { } do not concur { } with the above justification and recommend { } do not recommend { } the procurement of the above as a sole source. If applicable, the reason(s) for disapproval are:

Antonita Bryant 11/7/2024
Director of Procurement Services Date

I, the undersigned designee, acting for and on behalf of the University President pursuant to the delegation authority approve { }, disapprove { } the procurement of the above as a sole source. If applicable, the reason(s) for disapproval are:

W. Rebecca Brown 11/12/2024
VP, Administrative and Financial Services Date

POSTED FROM 11/12/2024 4:00PM TO 11/15/2024 4:00PM
DATE TIME DATE TIME

FAILURE TO FILE A PROTEST WITHIN THE TIME PRESCRIBED IN REGULATION 6.005(9) (K), SHALL CONSTITUTE A WAIVER OF THE RIGHT TO PROCEEDINGS.

## **uCentral**

uCentral delivers the information found in trusted medical resources on mobile devices or the web. Each institution selects content for a customized aggregation that is integrated with the existing journal collection. With downloadable, on-device references patrons can quickly and confidently find answers even when network connectivity is not available.

The award-winning Unbound Platform has a clean, intuitive interface, easy-to-use navigation tools, and Cross Links between available resources. Text, images, audio, and video performance are optimized for all popular devices including iOS (iPad®, iPhone®, and iPod touch®), and Android™ (tablets and smartphones).

### **uCentral includes:**

#### **PRIME PubMed Search, Journals, and ForYou.**

Quickly search over 32 million citations and abstracts from the PubMed database and leverage your institution's existing journal collection with full-text access to local holdings.

Additional features of *PRIME* include:

- Grapherence™ – Exclusive to Unbound Medicine, Grapherence delivers a new way to visually explore the interrelationships of medical literature
- ForYou: Discover new articles in a feed designed specifically for you based on how you use the app
- PDFs from PubMed Central – Full-text articles and/or PDFs from PubMed when available
- Full-Text Links – Direct links to the publisher's full-text article when available
- Sharing Options – Easy sharing of abstracts and citations via email, Dropbox, Twitter, Facebook, and more
- Multi-Format Support – Email abstracts and citations in preferred format (Prime, XML, HTML, etc.) to upload to a bibliographic manager
- Link Resolver Support – On the device or on the web interface

### **Features of uCentral:**

#### **Calculators**

uCentral includes integrated calculators for quick and easy calculations. Clinical users can access dozens of essential clinical, conversion, dosage, and IV calculators without leaving the uCentral app. Each calculator includes full equation descriptions and PubMed links to the supporting evidence within the literature.

#### **Notes**

Notes provides users the ability to make custom notes and highlights within the uCentral entries. Notes automatically sync between mobile devices and the web

### **Favorites**

Quickly revisit important information by setting bookmarks in any of the resources contained in uCentral. Favorites sync across all mobile devices and the web.

### **Universal Index Search**

Conduct searches across all available indexes in the uCentral bundle to find answers without the need to browse through individual resources.

### **Cross Links**

Easily locate additional information about a topic by using Cross Links to jump to related entries in other available references.

### **Custom Institutional Messaging**

Communicate with users through uCentral. Use the tablet dashboard to create a customized message with the latest news or information.

### **Update Notifications**

Users will always have access to the most up-to-date information. When content updates become available notifications will be sent to all mobile devices prompting download of the latest content.

### **Statistics**

Administrators at institutions have access to powerful tools that deliver metrics on how uCentral is being used. Reviewing these statistics can identify which resources and features are best for their group of users.

### **Support**

Unbound Medicine offers free support for all products. We will answer questions and help troubleshoot any potential issues, taking the burden off of the IT department.

### **Training**

Free uCentral training is available for all faculty and students to demonstrate use of the customized mobile and web resource and to answer any questions.

### **Titles**

#### **5-Minute Clinical Consult**

5-Minute Clinical Consult delivers fast, to-the-point guidance on diagnosis and treatment of more than 1,000 medical conditions. It contains all of the information you need to provide quality care to your patients including diagnosis,

treatment, follow-up, and patient teaching.

## **Dermatology DDX**

Dermatology DDX features hundreds of high-resolution images of common skin conditions. Download to your mobile device to accurately diagnose and treat dermatologic disorders with confidence at the point of care.

## **McGraw-Hill Medical's Diagnosaurus®**

Diagnosaurus® is a valuable quick reference tool that contains over 1,000 differential diagnoses. Now available for multiple mobile platforms, this application helps healthcare professionals reach accurate diagnoses with speed and confidence at the point of care.

## **Evidence-Based Medicine Guidelines**

Evidence-Based Medicine Guidelines (EBMG) features nearly 1,000 clinical guidelines including diagnosis, treatment, and more than 3,000 evidence summaries that support each recommendation. EBMG includes an image library of over 1,000 images, as well as an extensive video collection. EBMG is updated quarterly.

## **Essential Evidence Plus POEMS (formerly InfoPOEMS)**

Essential Evidence Plus POEMS (Patient-Oriented Evidence that Matters) delivers new evidence that is especially relevant to patient care. Each new POEM is reviewed for accuracy and graded for relevancy before release, so you can apply the best research findings to your clinical practice. View new POEMs daily as they are delivered or search the archive by date or title.

## **Bates' Pocket Guide to Physical Examination and History Taking**

Bates' Pocket Guide to Physical Examination and History Taking is a quick-reference guide for taking a detailed patient health history and conducting a thorough physical examination. Extensive use of images and tables along with an emphasis on evidence-based information make this mobile resource a must-have for health professionals.

## Guide to Diagnostic Tests

Guide to Diagnostic Tests provides evidence-based recommendations on the selection and interpretation of laboratory, imaging, and microbiology tests. Including more than 450 updated diagnostic tests, this handy reference is ideal for answering questions encountered daily by physicians, nurses, students, and other healthcare professionals.

## DSM-5-TR™ Differential Diagnosis Handbook

The DSM-5-TR Differential Diagnosis Handbook helps users narrow down an accurate psychiatric diagnosis. Built-in interactive decision trees make finding a diagnosis a step-by-step process of asking yes or no questions. The trusted 6-step process and latest DSM-5-TR classifications from the American Psychiatric Association make this a must-have tool for all clinicians and students.

## Drug Interactions from The Medical Letter™

Drug Interactions from The Medical Letter® is an unbiased mobile resource that lets you search for multiple drugs, see all interactions, and review and research options for safe drug administration. Start by searching for drugs by both generic and brand name and add them to a list has been built into the app. All known interactions between all selected drugs can then be sorted alphabetically or by significance.

## Johns Hopkins ABX Guide

The official Johns Hopkins ABX (Antibiotic) Guide from Johns Hopkins Medicine features up-to-date, authoritative, evidence-based information on the treatment of infectious diseases to help you make decisions at the point of care. This comprehensive web and mobile resource organizes details of diagnosis into easily accessible, quick-read entries.

## Johns Hopkins Diabetes Guide

The official Johns Hopkins Diabetes Guide from Johns Hopkins Medicine contains up-to-date, evidence-based, clinical decision support information for diabetes. The Diabetes Guide contains recommendations on management, complications, and medications and features review details on tests,

complications, drugs, and management with expert editor comments.

### **Johns Hopkins HIV Guide**

The official Johns Hopkins HIV Guide from the experts at Johns Hopkins Medicine delivers the latest authoritative support information on HIV diagnosis, management, and relevant medications. Clinicians can consult The HIV Guide to find answers fast about opportunistic infections, malignancies, complications, related drugs, and therapy guidelines at the point of care.

### **Johns Hopkins Psychiatry Guide**

The official Johns Hopkins Psychiatry Guide provides quick-read recommendations for the diagnosis and treatment of psychiatric diseases. Complex topics have been consolidated into need-to-know information consistent with the latest DSM-5 diagnostic criteria. This is the ideal resource for all healthcare professionals treating patients with mental health disorders.

### **The Washington Manual of Medical Therapeutics**

The Washington Manual of Medical Therapeutics provides access to practical clinical recommendations for residents and senior medical students. Use this mobile database to quickly diagnose and treat patients with hundreds of common medical conditions.

### **uCentral Site License Details**

The site license grants the following access to users affiliated with the institution (authorized users):

- Web access for all authorized users.
- The ability to download a full copy of the content to a smartphone and/or tablet for each authorized user.

The duration of the annual license starts on the agreed-upon date and is set to renew one year from that date. In the event that the site license is not renewed:

- Authorized users will lose access to the uCentral website (<https://unboundmedicine.com/ucentral>).

- All licensed titles available through uCentral will be deactivated and removed from any devices on which they have been installed.

Nursing Central Site License

# Nursing Central

Nursing Central is the premier teaching and learning platform for institutions preparing next-generation student nurses for professional practice. Nursing Central for Institutions includes an education system, trusted references, and powerful tools.

## Education

### Unbound Scenarios™

Unbound Scenarios helps nurse educators teach clinical judgment using case-based learning to prepare practice-ready nurses. This diverse set of clinical scenarios takes students on a guided journey to gain the experience and confidence required to be a trusted nurse.

**Develop clinical judgment** through repetitive practice and diverse patient scenarios

**Increase confidence** for NCLEX and nursing practice with NGN-style questions

**Engage students** with interactive activities that guide, empower, and encourage

**Apply proven teaching models** to construct a well-rounded nursing mindset

**Adapt teaching strategies** with out-of-the-box activities for lecture or asynchronous learning

## References

### Davis's Drug Guide

Davis's Drug Guide delivers up-to-date, comprehensive, and practical information on over 5,000 trade names and generic drugs. This powerful resource contains everything you need to provide premium care to your patients including information on dosing and administration, safety, interactions, patient teaching, and much more.

## **Taber's Medical Dictionary**

The new 24th edition of Taber's Medical Dictionary is the most complete health science dictionary available today. Taber's features over 75,000 entries, 1,300 illustrations, 130 videos, and 33,000+ integrated audio pronunciations.

## **Diseases & Disorders**

Diseases and Disorders is a "must have" reference for every nurse. Complete coverage of more than 240 medical conditions encountered in nursing practice provides the necessary information to effectively plan and deliver patient care.

## **Davis's Laboratory and Diagnostic Tests**

Davis's Laboratory and Diagnostic Tests contains hundreds of useful laboratory and diagnostic test monographs to help understand and implement critical test procedures. Each entry delivers details on how the test works, how to accurately interpret results, and how to prepare and instruct your patients. With recommendations on pretest requirements, intra-test procedures, and post-test care, this mobile resource is the perfect companion for practicing nurses, nursing students, and other health care professionals.

## **Nurse's Pocket Guide**

Nurse's Pocket Guide is a quick-reference resource that includes the latest NANDA-approved nursing diagnoses and interventions. Each diagnosis includes a definition, desired outcomes, risk factors, actions/interventions, documentation focus, and more. Nurse's Pocket Guide also includes information on the basics of the nursing process and its application, as well as sample care plans and tips for creating them.

## NCLEX-RN Quest

NCLEX-RN Quest prepares students for the NCLEX exam with 1,000 interactive questions provided by F.A. Davis. Test, quiz, and practice modes, help students familiarize themselves with exam questions. Detailed rationales are provided to better student learning and retention. Questions are randomized so that each test-taking opportunity differs from the next.

## Tools

### Calculators

Integrated calculators for quick and easy calculations. Clinical users can access dozens of essential clinical, conversion, dosage, and IV calculators without leaving the Nursing Central app. Each calculator includes full equation descriptions and PubMed links to the supporting evidence within the literature.

### Notes

Make custom notes and highlights within resources. Notes automatically sync between mobile devices and the web.

### PRIME PubMed Search, Journals, and ForYou

Quickly search over 32 million citations and abstracts from the PubMed database and leverage your institution's existing journal collection with full-text access to local holdings.

### Grasp™

A flashcard study system designed to meet your students where they are. Create decks for students or have them create their own. *Grasp* is an on-device and on-demand spaced repetition learning system—a proven factor in knowledge retention.

### **Glimpse™**

*Compatible with Taber's and Davis's Drug Guide*

Save valuable time using *Glimpse*, an in-text discovery tool to instantly define unfamiliar medical terms and search drug information.

## **Features of Nursing Central**

### **Favorites**

Revisit important information by setting bookmarks in any of the resources. *Favorites* sync across all mobile devices and the web.

### **Multi-Search Capability**

The *Universal Search* feature will conduct searches across all available resources in your bundle and offers Index and Full-text search functionality.

### **Cross Links**

Locate related information with *Cross Links*.

### **Update Notifications**

Know when updated information and new resource editions have been made available.

## **Implementation & Training**

### **Support**

Unbound Medicine is there for you with free support for all our products. We will answer questions and troubleshoot issues, taking the burden off of your IT department.

## Training

Free Nursing Central training is available for all faculty and students. Training includes an introduction to all of the resources and features in Nursing Central and how they might be applied in the classroom, lab, and/or clinicals.

## Mobile and Web Access

Access resources, integrated tools, study aids, wellness programs, and more on the web or mobile devices.

## Statistics

Nursing Central usage reports identify which resources and features are most used by your institution.

## Site License Summary

Our site license for Nursing Central offers numerous benefits, including simplified administration, access on multiple devices, regular updates, faculty access, and complimentary training. The following points provide more information on these advantages:

- **Continuous Program Access:** As long as the site license is active, students will have uninterrupted access during their time in the nursing program. Faculty associated with the program have ongoing access to Nursing Central with an active site license. Effectively this is a free yearly renewal, which is valued at \$99.99 or more per year per user.
- **Simplified Administration:** With our IP-authentication and Single Sign On (SSO) options there's no need to track serial numbers (unless purchased through the bookstore).
- **Multi-Device Access:** Users can access Nursing Central at <https://nursing.unboundmedicine.com> and download the app on one phone and one tablet.
- **Free Regular Updates:** Resources are continuously updated and any new content is delivered instantly.
- **Faculty Access:** All faculty members, including adjuncts, can access Nursing Central on the web and mobile devices.
- **Complimentary Training:** Student and faculty training on the software is included with every site license.

- **New Graduate Access:** Graduates will enjoy six months of full access to Nursing Central post-graduation. Following this, they will be transitioned off the institutional site license. At this juncture, we will directly provide individuals with options to restore access, ensuring they have the necessary resources for continued professional development.

The annual site license begins at the agreed upon date and is scheduled to renew every 365 days. Should your institution end its site license the following events will take place:

- A student who has downloaded the app on their mobile device will maintain access to Nursing Central as long as they are in possession of that same device. The app will not be updated and cannot be transferred to another device.
- Faculty will lose access to Nursing Central on their mobile devices. They will have the opportunity to renew as an individual user.
- Access to <https://nursing.unboundmedicine.com> will cease for all students and faculty.
- If students purchased Nursing Central through the bookstore and registered less than a year before expiration, they will be extended six months from the expiration date.
